Post 16
Information Evening
for parents
Welcome
Background

- Post 16 educational provider
- A-levels and a range of vocational courses
- Approximately 300 students
- Very successful – results and destinations!
Our students in 2019 have been successful in reaching their first-choice destinations. Students are going to universities far and wide, from the local universities of Teesside, Newcastle and Durham to those further afield such as Keele, Liverpool and Chichester. Equally, students have opted to study a real range of courses including: midwifery, Japanese, international relations and politics and musical theatre. Alongside those students going to university, several students have gained excellent apprenticeships with companies who have worked closely with the academy, such as Morrisons and Accentura.
What are we about?

- **Academic success**
- **Destinations**
- **Support and guidance**
- **Employability/preparing you for the future**
- **Developing life skills and experiences**
- **Providing opportunities**
- **Fulfilling potential**
