

FURTHER MATHEMATICS

A LEVEL

COURSE TITLE

A level Further Maths

EXAM BOARD

Pearson Edexcel

METHOD OF ASSESSMENT

Examination

KEY TOPICS

We currently do the mechanics and decision options.

COURSE HIGHLIGHT

If you are planning to take a degree such as Engineering, Sciences, Computing, Finance or Economics or even Mathematics itself, you will benefit enormously from taking Further Mathematics. Further Mathematics introduces new topics such as matrices and complex numbers that are vital in many STEM degrees.

Our students who have studied Further Mathematics find the transition to such degrees far more straightforward. If you decide to study for a mathematically rich degree during year 12, but are not taking Further Mathematics it is often possible to start AS Further Mathematics alongside A level Mathematics in year 13.
